

How to Play Kim Jong Chew

Kim Jong Chew is a satirical Android application. Play as supreme North Korean leader Kim Jong Un, A.K.A. “Little Fatty” and stuff yourself with donuts while avoiding the prying eyes of the American spies! Protect North Korea's donut stash at all costs! Gameplay is simple, yet addictive.

1. Download the game onto your phone or tablet

i This app is compatible with your device.

Installed

The game is free and is available on the Google Play Store (<https://play.google.com/store/apps/details?id=com.robohand.kimjongchew>). At this point, the game is only available on Android, but the iOS version is coming soon!

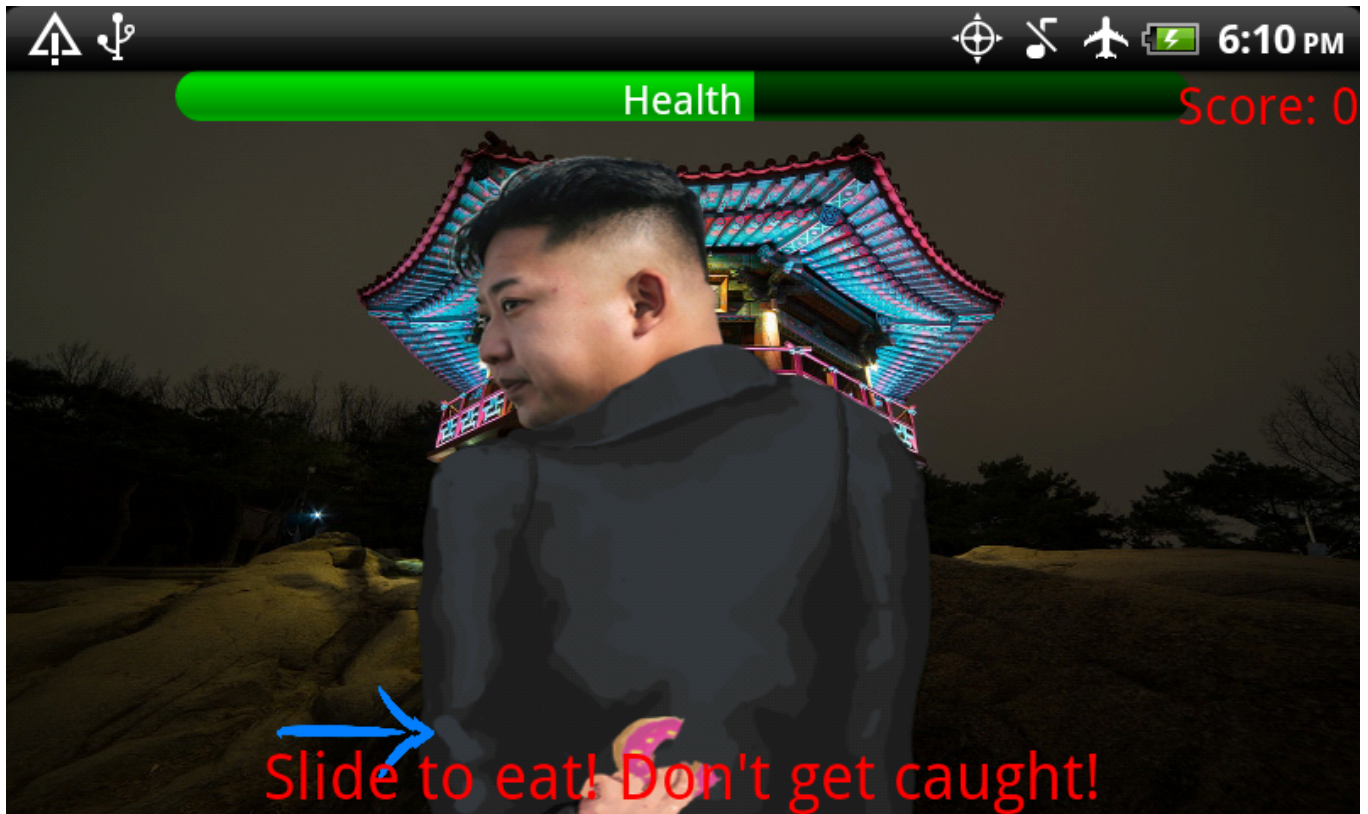

Note: this game was developed for the now discontinued Android Honeycomb (https://en.wikipedia.org/wiki/Android_Honeycomb) operating system. If you are using a later version of Android, your device may not yet be supported!

2. Examine the main menu

The main menu features a few buttons under the cover image. If you would like to play without the game's awesome sound effects, tap the “Music” checkbox to disable music. Tap “About” to read about the developer and find links to the artwork used in the game.

3. When you are ready to play, press "Start"

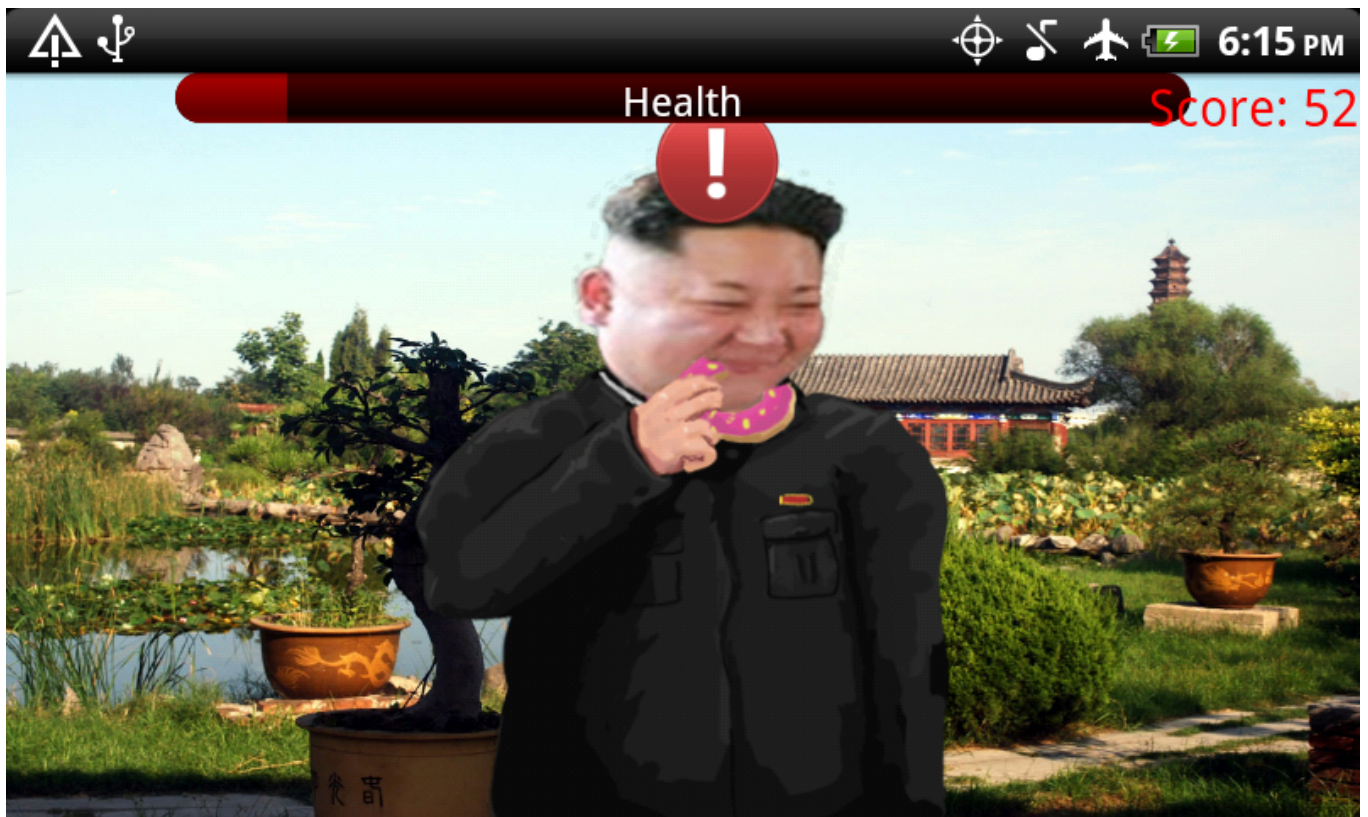

This will begin the game. Read the informational text that appears. This text appears whenever you start the game to remind you how to get started.

4. Slide to eat donuts

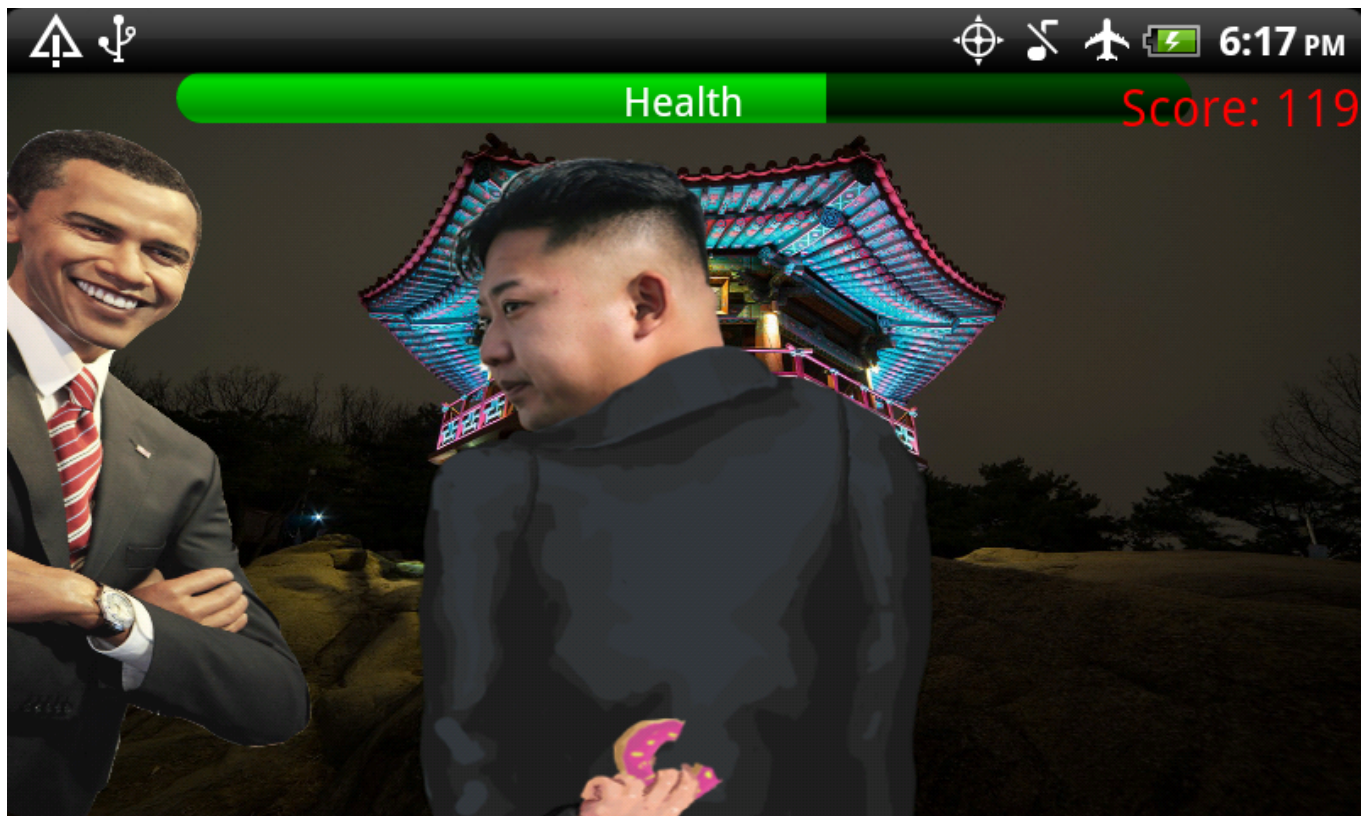

Slide your finger back and forth across the screen as fast as possible to eat your donuts. The faster you slide, the faster you eat. Your score depends on the number of donuts you eat, so try to maximize your eating time!

5. Keep eating

While you aren't eating, your health meter will decrement. If your health reaches zero, you will die, and if you die, the American spies win. Keep eating to increase your health.

6. Stop eating when enemies enter the screen

Right before an enemy enters the screen, a warning icon will appear above Kim Jong Un's head. Do not let the American spies catch you in the act! Your enemies include:

- Barack Obama
- Uncle Sam
- FBI agents
- Policemen

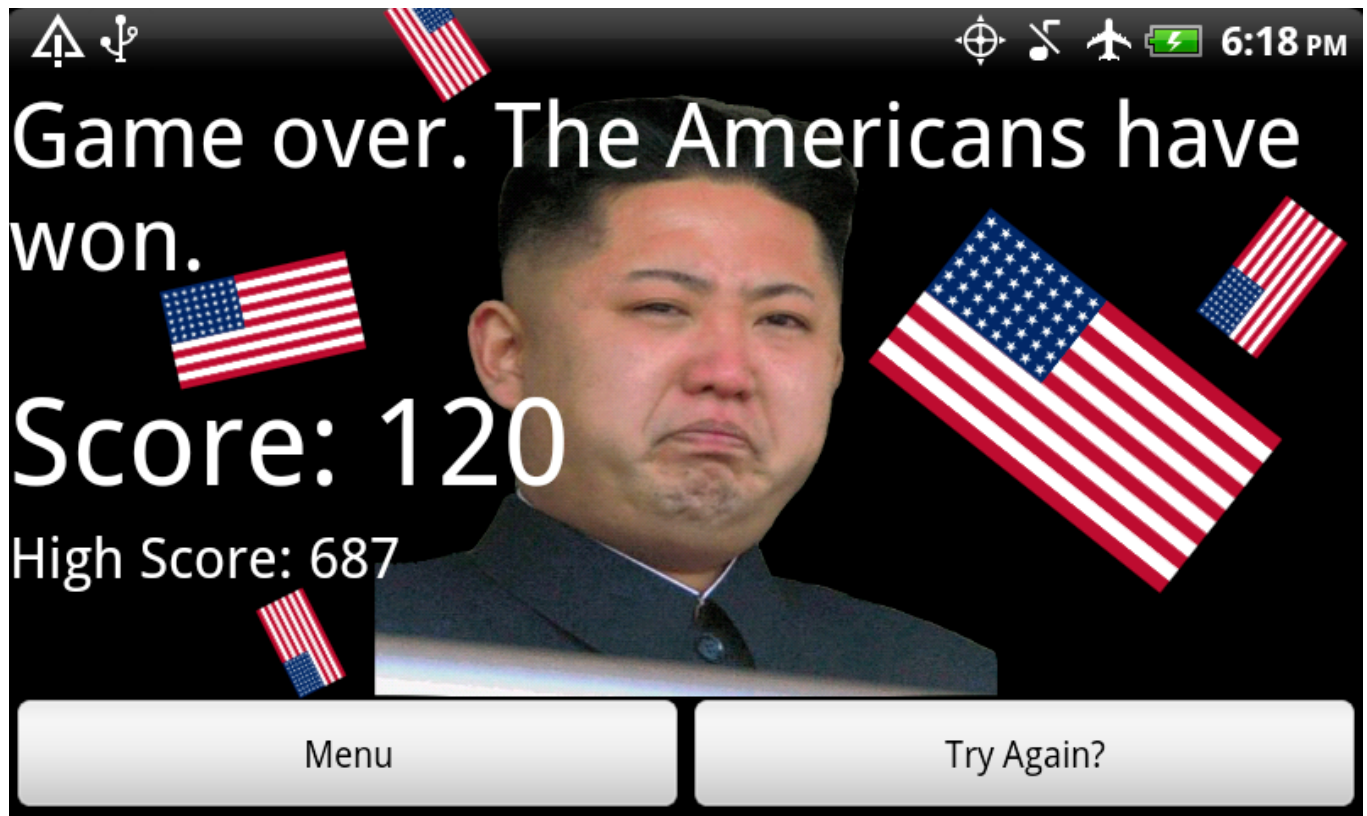

If you eat while an enemy is spying on you, you will lose the game. If you have lost, simply press “try again” to retry. Don't let the Americans win.

7. Develop a strategy

Over time, you will be able to predict exactly how much time you have to eat after the warning icon appears. You can use this to your advantage to eat as much as possible. Note that enemies remain on the screen a variable amount of time, so keep your reflexes sharp to resume eating as soon as they leave.

8. Realize that you cannot win

There is no way to win Kim Jong Chew. Play until you die, and try to beat your high score!

9. Email the developer!

This game was developed by a college student in his spare time. If you liked the game, have any cool ideas, or would like to give constructive criticism to the developer, he would love to hear from you! More info can be found on the “About” section of the app, and the developer can be reached at robothand@vt.edu (<mailto:robothand@vt.edu>). You may even earn yourself a shout-out in the next update...
