

Dear Ms. Baker,

Thank you for meeting with Gabby awhile ago to discuss parking and transportation here at Tech. As we are sure you know, our group was crafting a recommendation report for our technical writing class. Your interview gave us valuable information in writing the report, and we really appreciate your willingness to stay in contact with Gabby throughout our research process.

Gabby told us that you were interested in reaching out to students in order to get some good publicity for Parking Services. Our group agrees that having some sort of presentation or forum would be a great way to connect with students and open a useful dialogue between the two entities. If you would like any suggestions as to what students would be open to, please do not hesitate to reach out to us; we would love to give you any input we can.

We would also like to share our recommendation report with you, for it could not have been accomplished without you. We conducted a survey of Hokie drivers that recorded 178 responses, and we feel that you would be interested to scan over the results. The report also contains a recommendation to Parking Services on how to alleviate some of the current woes of Hokie parkers.

The report is attached as a PDF. If you would like to further discuss anything contained in it, we would be happy to discuss things with you.

Thanks again,

Patrick Gatewood
